Veranda Attachment Instructions

After installed the top tent, attach the veranda on the extended base of tent as following steps:

Step 1. Unpack veranda from its bag, check inner and outer, left panel and right panel.

Step 2. From the folding part of the tent base, insert the panel edge to the rope track and slide the panel along the track to the joint of ladder. (As shown on figure)

Step 3. Attach another panel to the base of car roof tent as above.

Step 4. The panels connected with zipper, slide the zipper to close or open two panels, so you can use it as a door.
